UMSL's Institutional Repository Library has surpassed 2 MILLION all-time downloads! With 128,282 downloads in March alone, our 12,485 total works are reaching researchers worldwide. Explore UMSL research at irl.umsl.edu (and special thanks to those enthusiastic bots in Brazil!)

Alt text generated by Claude: This image shows the April 2025 Monthly Statistics for the Institutional Repository Library (IRL) at the University of Missouri-St. Louis.

The graphic displays a world map with numbers representing downloads by region for the month. Various circles with numbers are spread across different continents, with some notably large numbers such as 82,385 in South America, 7,829 in a part of Asia, and several thousand downloads in North America and Europe.

Below the map, there are four key statistics presented:

69 New Works
128,282 March Downloads
12,485 Total Works
2,013,432 All-time Downloads

The graphic includes the website "IRL.UMSL.EDU" and the tagline "Find UMSL Research In Real Life," with the UMSL Libraries logo at the bottom.

This visualization demonstrates the global reach and usage of the university's institutional repository, showing how research from the University of Missouri-St. Louis is being accessed worldwide.

How often do you post?

One a month

Why do you post?

Because it's fun / habit

Should I do this?

If you want to, it's easy and it looks cool. You can say you have a social media presence and not be on twitter / crosspost

Any surprise benefits?

Since the bepress dashboard can't tell me how many objects were in my collection in the past, I have this very hard to access history in a series of infographics I can refer to. Which is helpful for ACRL stats.

If you want my template,
you can have it
– it's an xfc file.
